About 46 people attended the discussion meeting run by Graeme Nicholas. Everyone had plenty of opportunity to have their say about how the group is operating and some good suggestions for improvement or refinement have been put forward. The members present, emphasised the importance of our continued socializing and fitness and the opportunities offered by being part of an organized group. There is a lot of information to be processed but a detailed report will be presented to the group. Many thanks to Graeme, who calls himself a retired researcher, for your expertise in this field and your input into helping members have their say in the forward planning of the group.
